Cambridge International AS & A Level

Business, Accounting, Economics - A in all subjects (Top 6% nationally)

Raipur, India

Aug 2021 – May 2024

EXPERIENCE

Robusst (AI & Telecom Solutions)

Business Development & Research Intern

Pune, India

Dec 2025 – Present

- Conducted business research and market analysis across APAC and EMEA telecom sectors, identifying vendor pricing gaps and operational inefficiencies to support strategy.
- Gathered and documented business requirements from stakeholders, structuring data into internal CRMs to build actionable target lists for the sales team.

180 Degrees Consulting

Strategy & Operations Consultant

Pune, India

Sep 2024 – Present

- Coordinated with cross-functional teams to gather project-related information, supporting a funding model that raised INR 1 Million within 30 days for Asha Care Trust.
- Synthesized operational data into client-ready business summaries and presentations, supporting an estimated 20% improvement in workflow efficiency across 3 simultaneous projects.

NXTJOB.AI

Operations Intern

Remote

Sep 2024 – Nov 2024

- Analyzed recruitment workflows via data-backed process-gap analysis, identifying trends and recommending workflow improvements that reduced candidate turnaround time by 15%.
- Helped maintain organized records and process documentation with 100% data-entry accuracy for ongoing operational initiatives.

Finologix (Financial Research Brand)

Founder & Content Strategist

Pune, India

Jan 2021 – Present

- Built and scaled a research platform to 15,000+ organic views; utilized audience analytics and strategic reporting to sustain a 12% engagement rate.

KEY PROJECTS

EconAI - Predictive Market Analytics (Python, Power BI)

- Built a Tier-2 city demand-forecasting model in Python (Pandas, Scikit-learn) using time-series and multivariable regression, improving accuracy by 18%.
- Deployed interactive Power BI dashboards for operational analysis and exploratory data analysis (EDA) of macroeconomic trends.

Quantitative Portfolio Optimization (Financial Modeling)

- Built a multi-asset portfolio model in Advanced Excel, optimizing allocation weights via Modern Portfolio Theory (MPT) to maximize the Sharpe Ratio.

SKILLS, CERTIFICATIONS & AWARDS

- **Tools:** Advanced Excel (VLOOKUP, Pivot Tables, Macros), Power BI, Python (Pandas, Scikit-learn), SQL, Google Workspace
- **Analytics & Reporting:** Data Reporting, Operational Analysis, Process Documentation, Demand Forecasting, Financial Modeling
